

PLACENTIA AVENUE UNDERCROSSING

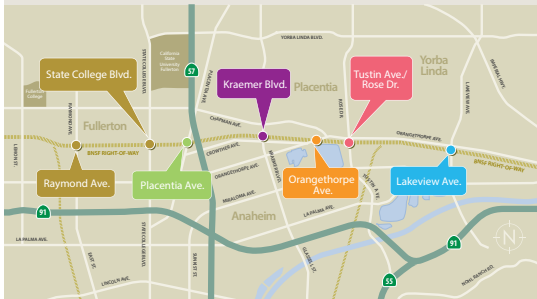

O·C·BRIDGES

Improving safety. Removing delays.

AT A GLANCE

PROJECT COST:	\$64.4 million
CORRIDOR CITIES:	Anaheim, Fullerton and Placentia
CONTACT:	Tresa Oliveri 714 560-5374 ocbridges@octa.net
FUNDING:	OC Go and state funds

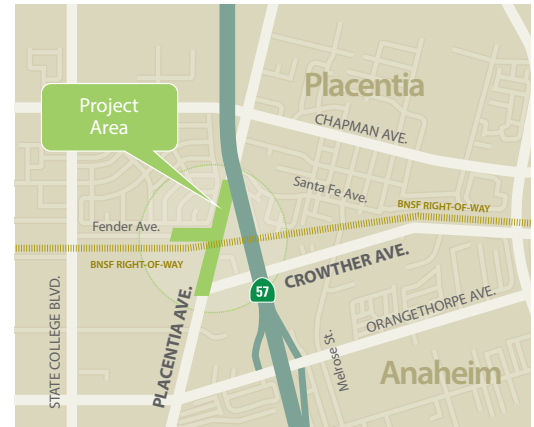

Lead Agency: City of Fullerton
Lead Agency: Orange County Transportation Authority
Project area is approximate.
Updated 4/1/19

The Orange County Transportation Authority (OCTA) constructed a vehicle undercrossing at the intersection of Placentia Avenue and the Burlington Northern Santa Fe Railway. As part of the project, the roadway was lowered to separate car traffic from train traffic. The undercrossing is located between Crowther Avenue and State Route 57. The project moves cars safely and smoothly under the railroad tracks, enhancing safety and boosting mobility. The Placentia Avenue undercrossing is one of seven grade separations within the OC Bridges Program.

This project was funded by OC Go (also known as Measure M), a 30-year half-cent sales tax for transportation improvements in Orange County through 2041. After Experiencing the success and progress of M1, nearly 70% of Orange County voters renewed the half-cent sales tax for transportation improvements to launch OC Go in 2011. In addition to OC Go funding, this project received funding from state sources .

PROJECT BENEFITS

- Greater driver/pedestrian safety
- Shorter emergency response times
- Elimination of delays
- Easier business access
- Enhanced economic vitality
- Improved air/noise conditions
- Better quality of life

PROJECT MILESTONES	BEGIN	COMPLETED
Environmental	September 2008	September 2009
Design	February 2009	October 2011
Construction	January 2012	July 2014

The OC Bridges Program is partially funded by Measure M, Orange County's half-cent sales tax for transportation improvements.
